Profile

Full stack Junior Software Engineer proficient in React, JavaScript, Node.js and HTML & CSS. A fast learner, able to self-manage during independent projects, as well as collaborate in a team setting. I have a genuine love for solving problems, writing code and building things that people love.

Skills

Front End: React, Vue.js, Redux, HTML5, CSS3, JavaScript (ES5 & 6), jQuery, Bootstrap, & Tailwind.CSS

Back End: Node, Express, Ruby, Ruby on Rails, SQL, PostgreSQL, MongoDB.

CMS: WordPress, Shopify, Contentful, Sanity.io.

Tools: Git, HelpScout, Figma, Adobe XD, Adobe Photoshop.

Education

Software Engineering Immersive

General Assembly

March 2021

Bachelor of Business

Administration

Australian National University

February 2019

Bachelor of Arts

Australian National University

February 2018

Software Development Projects

🔗 Drip

Stack: React, Redux, Express, Node.js, Stripe, MongoDB & Tailwind CSS.

Drip Coffee is a coffee ecommerce store built with the MERN stack (MongoDB, Express, React & Node). Drip utilises Stripe for payment processing and Redux for state management.

Freelance Web Developer

Jan 2020 - Nov 2020

Successfully planned, designed and developed WordPress websites for various small Sydney businesses. Following design and functional specifications, I used tools such as the Divi Page Builder, Contact Form 7, Yoast SEO, and various caching plugins to help companies take their first digital steps.

🔗 Olive & Grain

Olive & Grain is a Sydney based delicatessen specialising in platters, cakes and quiches. A Woo Commerce WordPress site, I handled the design, asset creation and development using Divi, jQuery, HTML, and CSS. [View project here](#).

🔗 ACB Operations

ACB is a Sydney cleaning company. A brochure site; the focus was to attract clients and serve as a contact point for future leads. The site was built using Divi, jQuery, HTML, and CSS.

Junior Operations Associate

MealPal Australia

Mar 2019 - Aug 2019

- Worked effectively within a small team to provide daily support to customers via HelpScout across Australia, New Zealand & Singapore.
- Successfully handled upwards of 100+ ticket resolutions per day whilst also generating a successful retention rate of over 40%, decreasing churn and increasing average revenue per quarter.
